

Teko Competence Center to participate in BUSINESS-INFORM 2013

Teko Competence Center will take part in [BUSINESS-INFORM 2013 Expo](#), which will be held on May 21-23 at the All-Russian Exhibition Center. The Competence Center's personnel will be glad to see all those who are interested in the pavilion #20 at the C6/D5 booth.

The [Competence Center](#) (CC) is a special department of Teko Company, which provides product testing and informational support on the issues of printing equipment, supplies and parts for the last ten years. The participation in the exhibition became a possibility for CC to share the experience and to convey the important technical information to the specialists in the printing field.

The CC booth will display a number of equipment as well as some technology pieces for laser printing supplies standardized testing. Also, on 21st of May, the head of Teko Competence Center, Alexei Samoshkin, will present the report called [Standardizing the Quality Evaluation of Supplies](#). The report will contain the definition of quality in relation to printing equipment supplies and show the methods of its evaluation.

The most important point of the report will be standards. The booth visitors will learn why standards are important, what are standardized methods, and other important issues. The speaker will especially particularize on STMC standard. After a short overview of the methodic of measuring laser-printer-cartridges characteristics introduced by International Standardized Test Methods Committee (STMC), the criteria of complying with this certificate will be reviewed. At the end of the report there is expected to be a presentation of STMC measuring-results-interpretation standard.

During the three days of the exhibition, CC personnel as well as STMC representative, Static Control technical specialist, Carey Rosser, will provide the consulting aid in the STMC certification field to both Teko dealers and companies that are not presently Teko partners.

The international [BUSINESS-INFORM 2013](#) exhibition is being held on May 21-23 in Moscow, at All-Russian Exhibition Center in Moscow, pavilion #2.

The admittance to the exhibition is for free. To receive a badge it is necessary to fill in a simple form (either at the entrance to the exhibition or during prior registration on the web-site: <http://sforp.ru/BI2013eng/reg.htm>)
